

Press Release

New App from Local Developer BudgEat® Seller

Roseau - March 11th, 2019 - Available today, **BudgEat Technology Services** is launching a brand new App for Local Vendors, Artisans and SMEs who are looking to sell their products via Social Media (Primarily on the WhatsApp mobile app platform).

WhatsApp is a Communication tool which has a large audience. And as of December 2017, the mobile messaging app announced more than 1.5 billion monthly active users.

But WhatsApp is not natively a Sales tool. And this is what BudgEat has set out to accomplish with its new App BudgEat® Seller.

The App provides additional features for WhatsApp such as:

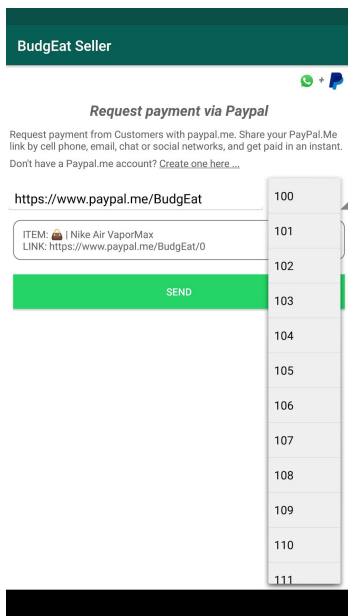

Product Inventory

- Easily Manage products/catalogs and share via a smart link to Customers, Friends, Colleagues or target groups on WhatsApp.

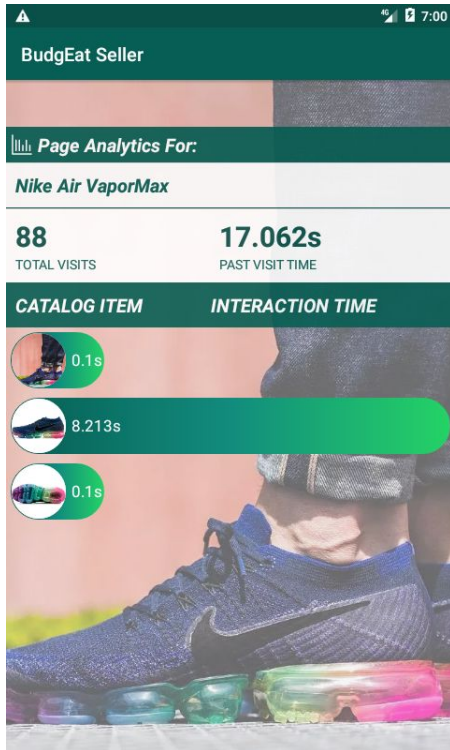

Payments

Share a custom (Paypal.me) link in chat, with a customer for direct payment of an item

Analytics

- Find out which of your items from your Catalog is generating the most interest

The full list of features can be see on the website at www.budgEat.co/sell

For a limited time (till April 30th) BudgEat is offering the BudgEat® Seller App for a discounted price of USD \$0.99 (XCD \$2.68)

This offer can be accessed at www.budgEat.co/market
